PROFESSIONAL SUMMARY

Automation QA Engineer with 4.5+ years of experience in UI and API test automation for EdTech and Finance domain applications. I am skilled in Selenium WebDriver, Java, TestNG, Cucumber (BDD), REST Assured, SQL, and JMeter, with hands-on experience in hybrid framework design (POM + Data-Driven). Strong exposure to Agile practices, regression strategy, CI-driven execution, and cross-functional collaboration.

TECHNICAL SKILLS

Programming Languages: Java | **UI Automation:** Selenium WebDriver | **API Testing:** REST Assured | **Test Frameworks:** TestNG, Cucumber (BDD) | **Framework Design:** Page Object Model (POM), Data-Driven Framework, Hybrid framework | **Version Control:** SVN, Git | **CI/CD:** Jenkins | **Test Management & Defect Tracking:** Jira, Redmine | **Performance Testing:** JMeter | **Database:** SQL | **Testing Expertise:** API Testing, Black Box Testing, White Box Testing and Performance Testing.

EXPERIENCE

Senior Quality Assurance Engineer

Senses Electronic Private Limited (Project Domain: EdTech)

November 2021—April 2026, Pune

- Designed and maintained hybrid automation framework using Selenium WebDriver, Java, TestNG and Maven.
 - Implemented Page Object Model (POM) with reusable utilities and centralized configuration management.
 - Developed Cucumber BDD feature files with step definitions for business-readable test scenarios.
 - Automated regression test suites covering critical business workflows.
 - Integrated automation suite with Jenkins for scheduled regression runs.
 - Performed REST API automation using REST Assured, validating 40+ endpoints including response schema validation and database verification.
 - Executed SQL queries for backend validation and data integrity checks.
 - Conducted cross-browser testing to ensure application compatibility.
 - Participated in sprint planning, backlog grooming, and defect triage meetings.
 - Performed functional and integration testing of customer-facing financial applications.
 - Prepared test plans, test scenarios, and test cases aligned with business requirements.
 - Performed performance testing using JMeter during high-traffic seasonal periods.
 - Collaborated with development and business teams in agile environment.
 - Mentored junior QA engineers on automation best practices and framework usage.
- **Key Achievement:** Reduced manual regression effort significantly by stabilizing automation suite and improving reusable component design.

Trainee Engineer

SSPL

December 2018—June 2020, Nagpur

- Contributed to process optimization initiatives improving operational efficiency.
- Developed strong analytical and problem-solving skills during production monitoring activities.

EDUCATION

Bachelor of Engineering [BE]- 72% Maharashtra Institute of Technology (MIT), Pune, India -2018

CERTIFICATES

Introduction to JMeter | Fellowship program in QA Automation (Grade A)

AWARDS

Chem-O-Model - Second Prize – 2017 | Division Championship in Badminton – 2014 | Project Completion Award (SSPL) – 2019.
